

A large rounded rectangle with a black border. Inside the rectangle, there are two horizontal dotted lines. The first dotted line is positioned near the top, and the second dotted line is positioned near the bottom, leaving a significant space between them for text.

Design your own License Plate:

1. Choose the Character Quality you want to be your State. Write this above the first dotted line.
2. Choose your unique identifier. Write it in capital letters in the space between the two dotted lines. You have a max of 8 characters.
3. If you want to add a motto, you can do it beneath the second dotted line.
